(54) Title: STORAGE OF VISCOUS SUBSTANCES

(57) Abstract: A storage device has a stand (3) and container (2) the stand and container of the invention provides an organised and tidy means of storing wallpaper paste-adhesive (11). Which-efficiently uses the space available furthermore the stand (2) and container (3) of the invention provides for people by being paste table (12) waist height hence easier excess to the paste-adhesive (11) when wallpapering. It is preferred that the device furthermore comprises of an air tight lid (6) which may be replaced over the opening of the container (2) when not in use. In using the air tight lid (6) the paste-adhesive (11) stored there in the container will not turn into a unusable watery consistency due to exposure to air. Preferably the invention further more comprises of handles (8) to provide an easy means of moving the device around when this is required. Alternatively or in addition the device preferably still the container has one or more at least one but preferably a plurality of attachment means there on where by a paste brush or paste roller (10) and other decorating implements such as a paste mixing tool may be reasonably attached to the device when not in use and removed when required not shown in figure (10).
